## SUMMARY

Full Stack Developer with 3+ years of hands-on experience building production-grade web applications using React, Spring Boot, Java, and PostgreSQL. Delivers end-to-end features across authentication, REST APIs, responsive frontends, and cloud deployments. Strong academic foundation (9.36/10 GPA) with real-world client-facing delivery, Docker-based workflows, and AI-assisted development.

---

## SKILLS

**Backend:** Java, Spring Boot, Spring Security, REST APIs, JWT, OAuth2 (Google), Spring Data JPA, Node.js

**Frontend:** React, Angular, TypeScript, JavaScript, HTML/CSS, Tailwind CSS, ShadCN/UI, Vite

**Database & Infra:** PostgreSQL, Supabase, Docker, Git, GitHub

**Tools:** GitHub Copilot, ChatGPT, Postman | **Languages:** Spanish (Native), English (C1 – Fluent)

---

## EXPERIENCE

**Full Stack Developer** | **Galante** | Nov 2025 – Present | Remote

- Built a production React + Vite SPA replacing a legacy spreadsheet-based legal workflow system used in judicial and administrative environments, covering case settlements, legal filings, and administrative document workflows.
- Implemented an automated financial calculation engine for settlement amounts and dynamic interest rate updates; integrated Supabase for PostgreSQL management, real-time sync, and multi-role authentication.
- Delivered iterative production releases through direct client feedback cycles, translating legal domain requirements into clear technical specs, UI flows, and data models.

**Freelance Full Stack Developer** | **Self-Employed** | Jan 2024 – Nov 2025 | Remote

- Designed and deployed Echoed, a full-stack music review platform (echoed-front.vercel.app), owning the full lifecycle from system design through production over 18 months.
- Built Spring Boot backend with Spring Security dual-auth (JWT + Google OAuth2), PostgreSQL schema with Spring Data JPA, and Angular frontend with routing guards, lazy loading, and HTTP interceptors.
- Delivered admin analytics dashboard, threaded comments, reaction system, and paginated feeds; standardized the dev environment with Docker Compose and deployed frontend to Vercel with CI-triggered builds.

**English Coach** | **English4Kids** | Aug 2023 – Jan 2024 | Mar del Plata

- Taught group English classes; achieved C1 proficiency — fluent in professional and technical communication.
- 

## PROJECTS

**Echoed** | [echoed-front.vercel.app](https://echoed-front.vercel.app) | 2024 – 2025

- Full-stack music review platform: Spring Boot, Spring Security (JWT & Google OAuth2), PostgreSQL, Angular, Docker, Vercel. Features admin dashboard, threaded comments, reaction system, and paginated review feeds.
- 

## EDUCATION

**University Technician in Programming** | Universidad Tecnológica Nacional (UTN) | Jan 2026 | GPA: 9.36 / 10
